

Casey E.B. Reas

- YES NO
- Layers of original and appropriated instructions.
- Stratum 1
- Make a grid or find a grid. Do one thing or another thing inside each unit.
- Stratum 1.1
- Draw a uniform grid of 200 x 200 squares within 1 square meter. Open a telephone directory and read the numbers in order. For each square, starting in the upper-left corner, fill with blue paint if the number is even, fill with red paint if the number is odd.
- Stratum 1.2
- Draw a grid of 40 x 25 units. Find a coin and define one side as A and the other as B. For each square, starting in the upper-left corner, flip the coin. If it lands with side A up, draw a line from the lower left to the upper right. If side B lands up, draw a line from the upper left to the lower right.
- Stratum 1.2.1
- 10 PRINT CHR\$(205.5+RND(1)); : GOTO 10
- Stratum 1.2.2
- size(3200, 2000);
- background(255);
- for (int y = 0; y < height; y += 80) {
 for (int x = 0; x < width; x += 80) {
 if (random(1) > 0.5) {
 line(x, y, x+80, y+80);
 } else {
 line(x, y+80, x+80, y);
 }
 }
}
